PROFILE

- **UI / UX Designer** with **nearly 12+ years** of experience in large engagements **designing high-end UX and UIs** including User Research, Usability Testing, and crafting user-centric SaaS, Website & Mobile App designs to accomplish the specific product and business objectives
- Domain expertise entailing **Data Analytics, Shipping, Finance, Automobile, FMCG & Healthcare.**
- Possess excellent **creative and technical expertise** with skills in designing strategies to attract users or viewers resulting in profitability.
- Strong **project management, project lifecycle & deployment implementation, analytical and training skills** that have resulted in repeated success in leading design & launch of leading-edge solutions.
- Participated in various phases of **product lifecycle** right from, Stack holder and user interview, information architecture, requirement gathering & analysis, effort estimation, wireframes, styles guides, look-and-feel, final layout and redlines for maintaining quality
- Skilled in all aspects of **User Experience** with rich experience in interaction design, visual design, usability, user research and content development; applied principles to drive the design of products that fully support end-user needs while also achieving the business vision & profitability.
- Interfaced with management & client and **identified product needs**; bridged the gap between functional groups and technology to foster targeted & innovative solution development.
- **Excellent management skills**, capable of leading & motivating teams and engaging with cross-functional individuals to maximize levels of productivity.

EMPLOYMENT HISTORY

Sr. UX Designer II, Precisely

Remote

Aug 2024 — Present

- Lead and mentor a team of 2 UX designers, guiding them through design processes, project priorities, and fostering skill development.
- Collaborate with cross-functional teams—including Product Managers, Engineers, and Data Scientists—to design intuitive and engaging user experiences for complex data-centric enterprise solutions.
- Drive UX design efforts from concept to delivery, ensuring alignment with business goals, technical feasibility, and user needs.
- Create wireframes, user flows, interactive prototypes, and high-fidelity designs to effectively communicate design solutions.
- Conduct user research, competitive analysis, and heuristic evaluations to inform design decisions and improve user experience.
- Advocate for user-centered design principles, ensuring accessibility, usability, and inclusivity across products.
- Contribute to design systems, component libraries, and UX guidelines to maintain consistency and scalability across products.
- Collaborate closely with developers during handoff to ensure design fidelity and smooth implementation.

CORE COMPETENCIES

Strategy Planning & Execution

Product Lifecycle Management

UX / UI Design

Project Execution & Management

Product Development/Innovation

Requirement Gathering & Analysis

Client / Stakeholder Management

Team Building & Leadership

- Present design concepts and solutions to stakeholders, gathering feedback and iterating based on insights.
- Participate in design reviews and critiques, providing and receiving constructive feedback to enhance design quality.
 - Stay up-to-date with industry trends, best practices, and emerging technologies, bringing innovative ideas to the team.

UX Manager, Ernst & Young

Gurgaon

Feb 2024 — Jun 2024

- Led the design of a portfolio management platform for Bank of New York's UAE & Gulf clients, driving digital transformation in the financial services sector.
- Spearheaded user-centric design, delivering intuitive and seamless user experiences tailored to regional needs.
- Conducted user research, stakeholder interviews, and usability testing to ensure alignment with business goals and user expectations.
- Created wireframes, prototypes, and design specifications; iteratively refined solutions based on feedback and business objectives.
- Translated business requirements and technical constraints into visually compelling and easy-to-use designs.
- Resolved UX challenges related to usability and findability; effectively communicated design ideas and prototypes to developers.
- Collaborated with global teams, attending design workshops, knowledge-sharing sessions, and incorporating diverse perspectives to drive innovation.
- Directed a team of 2-3 designers, mentoring and guiding them, setting individual goals, and monitoring performance.

SR. UX DESIGNER, AP. Moller Maersk

Bengaluru - Remotely

Jan 2022 — Dec 2023

Key Result Areas:

- Played a crucial role in shaping the user experience for internal & external users on the supply chain platform.
- Integrated shipment data and stakeholder management systems to streamline end-to-end logistics for Maersk SCM solutions, which digitally enabled by modern technology platforms, thus enhanced simplicity & connectivity of supply chains.
- Developed wireframes, adhered to best design practices, conducted a UX audit, performed user research, executed User Testing and facilitated UI implementation.
- Ensured that the solutions exceeded user expectations, drove efficiency & effectiveness across the supply chain landscape.

SR. DESIGN SPECIALIST-UX, HCL Software

Pune

Aug 2019 — Jan 2022

Key Result Areas:

- Worked with the Global UX Team on redesigning connections, a crucial SaaS product by HCL Software. This innovative solution enabled organizations to use an enterprise collaboration platform, enhanced connectivity, engagement & productivity.
- Supported development of design through effective User Analysis, identified user types, scenarios, and journeys.
- Established a strategic UX vision to enhance product usability & effectiveness.
- Utilized a blend of user, market, and competitive research to refine prototypes and ensure integration of user-centric solutions.
